Building in Truro

Update from Alan with some background for Will. Trustees will need to be appointed to oversee use of the building - choice of trustees important. Dangers of lots of churches involved but nobody leading in various uses. Other developments coming up in future. This project needs to work well as a 'test' for the future. CTT - discussion about CTT's role as Council will not work with just one particular church, etc. Do what's best for the gospel in Truro people loving impacting others, outreach - nothing changed Gospel-centred community in Truro

Rotas

Neil still able to collect trailer, need people the other end to unload, need to arrive on time. Need more of a spread of people to share rotes. Need to bring more people in.

Stephen and Neil going to discuss possibilities of others coming onto the rotas.
